Keith Shay

► Interactive Media Designer

Indelible Vision Design Client testimonial:

"Keith Shay (Indelible Vision Design) built a dynamic website for my company that I am very happy with. He was open to all my ideas and incorporated them into his thinking while keeping me in the loop every step of the process. His knowledge in the field is as great as his enthusiasm to work hard and quickly. I would recommend him to anyone who requires a state-of-the-art website at very reasonable cost."

-David Tonnesen
(DavidTonnesen.com)

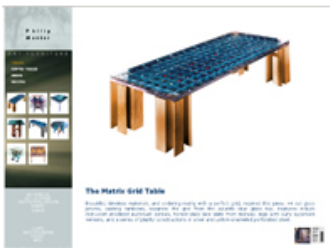

"Indelible Vision Design is clearly the best web design studio on the East Coast, if not the entire country. The studio's director, Keith Shay, has a marvelous sense of design, he knows all the up-to-date bells and whistles a client could ask for, and he responds immediately to all requests for additions and changes. We could not be happier with our choice."

- Daniel Klein & Thomas Cathcart
(PlatoandaPlatypus.com)

"After talking to a lot of web designers I found that Keith & Indelible Vision Design is providing quality design at very affordable rate. IVD was helpful and worked with me to make sure I got exactly what I wanted and needed. Keith developed a very creative site using elements that represent me and my boutique. Customer service is so on point and so prompt. I now host and webmaster my site with Keith and IVD and now my site gets updated quite often. I highly recommend them."

- Arianna Adele
(TahirBoutique.com)

"I wanted a website which reflects the high-end design qualities of my work for major clients, and Keith has delivered for me, big time-see for yourselves! I always strive to create the unusual, and the website has the features that reflect this, like the interactive applet that allows site visitors to create new and continually evolving designs... I have gotten many very positive responses to the site from the design community, and that is the ultimate compliment!"

-Phil Manker
(PhilManker.com)

"We are very happy about our new website. Keith has been so understanding and easy to work with. Anything updates needed are done quick! This was a big project to get done and IVD made it a simple process. I have recommended IVD to many other businesses and they now are clients of IVD. I'm so happy with the ongoing service and how user friendly everything is. Thanks to you Keith we have an awesome website that is always been taken care of! It's a blessing to work with IVD and we look forward to many more years of business with them."

-Kim Melia, Pre-Paid Legal Services
